

Stroll at the Front of the Pack with the UPPAbaby Vista Stroller System

When shopping for a baby carriage, choosing from the many options available can seem like a daunting task. RoyalBambino.com recognizes one stroller system that stands out for its many positive features and its ability to give you the best of all worlds – the Vista Stroller System by UPPAbaby! The Vista is a convertible 3-in-1 stroller system that is eco-friendly and one of the less expensive luxury strollers around. In 2009 it has been showcased on the Martha Stewart Show as a “Baby Must-Have,” and featured on the Ellen DeGeneres Show during her Mother’s Day special. Many new accessories have come out this year thanks to moms’ suggestions, and now this high-end luxury stroller really has it all. Discover the benefits of the Vista Stroller System!

The Vista Stroller System is both a pram and a stroller! Featuring a completely interchangeable lie-flat bassinet and a stroller seat, with easy-to-read red and green safe attachment indicators, this carriage is suitable from birth and beyond. Either seat can be faced forward or reversed, so you can keep a close eye on your child. It features a 3-position recline angle adjustment, and an elevated seat height so that your baby is closer to you and up out of the way of car fumes, dirt, and unwanted pets – and no high chair necessary when out at restaurants! The bassinet is fully lined with an eco-inspired blend of organic soybean and cotton fibers, so no synthetic fabrics touch your newborn baby, and all the fabric is removable and machine washable! The stroller seat features a pop-out SPF 50 canopy extension, which provides 30% more sun coverage, and convenient zip-in weather shield and mesh bug shield are included!

And those are just the features that make it comfortable for baby. The Vista Stroller System also has features designed with mom in mind! The entire stroller collapses flat with an easy one-step fold system, with or without the seat attached. It includes a one-touch telescoping handlebar to easily adjust for taller parents. There is a large under seat basket for ample storage space, and a hidden cell phone zip pocket on the back of the stroller seat. New optional collapsible cup holder accessory gives you a place to store that large coffee! A floating arch rear axle prevents toe-stubbing, and the welded aircraft aluminum alloy frame and wheels allow the Vista to weigh less and be more responsive. No-Flat TRP tires stretched over EVA foam and four-wheel shock-absorbing suspension ensure a smooth, worry-free ride. All these features come standard with the Vista Stroller System from UPPAbaby!

Add to all of this the many desirable accessories that UPPAbaby has to offer, and the Vista Stroller System can take you anywhere you want to go! The Vista system is available in six fashionable colors. Optional bassinet rain cover keeps baby dry in any weather. Car seat adapter bars for the most popular car seat brands such as Graco, Peg-Perego, and Chicco make it easy to take baby from car to stroller! Consider the new bassinet stand – the bassinet snaps snugly in place on this handmade walnut stand. Take your baby from carriage to bedroom without disturbing his sleep! Easily interchangeable new Urban or All-Terrain wheels make the stroller more easily maneuvered through any landscape! Highly-anticipated piggyBACK or RumbleSeat additions allow you to take your toddler along! The RumbleSeat transforms your single stroller into a dual in-line stroller instantly, and fits under the bassinet, stroller seat, or even car seat! The piggyBACK ride-along platform attaches to the back of the stroller so your toddler can hop aboard. Keep your whole family rolling in comfort with the Vista Stroller System!

UPPAbaby is an eco-friendly company, dedicated to creating a better environment for our children. Every stroller in their wonderful line is highly rated for quality and performance, and the Vista Stroller System is always at the top of the list! Invest in a high-quality luxury stroller that both you and your kids will love using to stroll around town!
