Working out of Massachusetts, USA, UPPAbaby's design appeal has spread in North America but is new to the UK and Europe. Breaking into the UK with their combination pushchair; the 'Vista', they are really going to give some of the more established brands a run for their money!

We first saw the UPPAbaby Vista when we went to the Harrogate Baby Show in April 2010, where retailers get a preview of everything up-and-coming. We were immediately bowled over by its good looks. A large, easily manoeuvrable frame with fantastic fabrics in funky colours, it is the 'Humvee' of the stroller design. The beauty in this pushchair is not just skin deep, it has been carefully thought out and delivers some good USA quality.
